

Co-created Workshops

Avocets Consulting has been working closely with universities and their faculties and institutes in Germany, the UK and Austria for over 10 years.

Much of this work centres on coaching individuals, (doctoral students, postdocs, junior professors and professors), and training groups of people. We work with Teacher training centres such as the Berliner Zentrum für Hochschullehre (BZHL), and Das Zentrum für Hochschuldidaktik (DiZ), in Ingolstadt as well as universities like the Bundeswehr University, Munich, TU Munich, TU Vienna, TU Hamburg, HAW Hamburg, Regents University, London, Kings College, London, Leibniz University, Hanover and Klagenfurt University.

We use the vast experience our team brings to design and deliver workshops through a cocreation process with institutes to ensure we create workshops that meet their needs.
